SPECIFICATION AMENDMENTS

Please amend the specification as follows:

<u>Substitute the paragraph beginning on page 16, line 17 with the following:</u>

The error & event processor_provides an error object to store information about each occurrence of an error during processing of a command line. For additional information about one particular error and event processor which is particularly suited for the present administrative tool framework, refer to U.S. Patent No. <u>7,254,751,</u> entitled "System and Method for Persisting Error Information in a Command Line Environment", which is owned by the same assignee as the present invention, and is incorporated here by reference.
